

## Progress Report: East Lyme's Overlook Park

R.S. De Santo, East Lyme Public Trust Foundation, Inc.

Taken at 8:22 am on January 4, 2013, this winter view of Overlook Park shows its full extent as seen from its easternmost end. The view includes its stone groin/fishing pier seen here when looking west from the top of the Niantic River Railroad Bridge tender's control house.

The photo was taken about one hour before dead low water, which resulted in the beach extending about 80 feet wide between the park walkway and the water's edge. Notice that the high water mark curves into the distance along the shoreline. That high tide mark was created where snow was melted and washed off the intertidal zone by a retreating tide.
