## Progress Report: East Lyme's Overlook Park

by R.S. De Santo, East Lyme Public Trust Foundation, Inc.

We discovered a "retrospective" aerial view this month of the first construction steps in Amtrak's replacement of the Niantic River Bridge.

As of April, 2010, work included placement of a turbidity barrier, grading of a construction road along the beach, and was followed by the dismantling of the 1,900 foot long elevated Niantic Bay-Boardwalk.

In demolition, the walking surface was cut into 20 x 12 foot sections and removed from the site. Shown in the April, 2010 aerial photo above are the last three of these sections.

Surplused panels were gifted by the construction contractor to the East Lyme Public Trust Foundation, Inc. The Foundation is using these used original Boardwalk planks to make commemorative plaques in return for public donations it uses to support its mission.

Once engraved, the finished plaques and the more than 1,400 that were removed for safe storage from the Boardwalk before work began, will be mounted in the Fall of 2013 to the fences lining the new walkway.

For more information on the construction progress see: <http://www.publictrustfoundation.org/news.htm>.
